GPO: 1975 O - 500-992

photograph taken at the request of an unknown House Select Committee on Assassinations Investigations, wanted the photograph taken because they found out that House Select Committee Investigators are checking on an allegation that Mr. MOORE might have been involved in a conspiracy plot to assassinate President KENNEDY. The information he has is that House Committee Investigators are talking to an individual who stated he met with an individual having Mr. MOORE's description prior to the assassination of President KENNEDY. This meeting probably had to do with MOORE or a man fitting MOORE's description meeting with the House Committee's source to talk about the assassination of President KENNEDY, or to actually commit the assassination.

The essence of the information he has is that efforts are being made to link Mr. MOORE to the President KENNEDY assassination. Possibility exists that the "Media" might extensively publicize Mr. MOORE's photograph.

He is furnishing this information because he is somewhat concerned with the fact that Mr. MOORE's reputation or career could be ruined by publication of this photograph, especially if this is just another allegation that does not have substantial factual basis.

He advised that he had no objection to having his identity and the information he is furnishing disclosed to Mr. MOORE personally or to CIA Headquarters.

On 4/15/77, the Dallas FBI Office advised JAMES W. MOORE that his photograph had been surreptitiously obtained. The above information was also orally summarized for him.

The above information is being furnished to the Bureau for appropriate dissemination to CIA.
