When incorporating information furnished by [REDACTED] into communications suitable for dissemination outside the Bureau, Bureau authority is not necessary when the information can be paraphrased so that the identity of the informant is not jeopardized. When certain specific information is of such a nature as to prohibit dissemination, the Bureau should be advised of the basis for non-dissemination. (S) (u)

Certain information furnished by [REDACTED] will be of such a nature as to necessitate a classification above "Confidential", since the disclosure of this information to unauthorized persons could have a detrimental affect upon international relations and the national defense. In all other instances, a classification of "Confidential" will be adequate if the information relates to Soviet nationals and can be adequately paraphrased. (S) (u)

b7D
When disseminating information received from [REDACTED], no reference should be made to the time (date, month or year) the information was received. This should be set forth administratively. (S) (u)

Suitable paraphrasing of the information to be disseminated, plus concealment of the time of its receipt will materially assist in concealing the identity of the source. (S) (u)

If the attached memorandum sets forth a Soviet's KGB code name, no further dissemination of that code name should be made. Such information is of no investigative value and its indiscriminate and unwarranted misuse could endanger the informant's sensitive position. (S) (u)

IN VIEW OF THE HIGHLY SENSITIVE POSITION OF [REDACTED], EXTREME CAUTION MUST BE EXERCISED IN HANDLING ANY INFORMATION ATTRIBUTED TO THIS SOURCE, AND NO ACTION TAKEN WHICH COULD CONCEIVABLY JEOPARDIZE THE SECURITY OF THE INFORMANT OR REVEAL HIS IDENTITY. (S) (u)

Informant said it was his overall impression, from visiting the Scientific Directorate headquarters, on several occasions, that the personnel complement of this Directorate is much larger now than it was a year ago. Informant said it was his estimate that approximately 300 employees are working in the Scientific Directorate headquarters at the present time, which he pointed out would include all those KGB (S)(u)

representatives of this Directorate who are affiliated with various committees and Ministries in the Soviet Union. Informant also made the observation that there were many "new faces" working in the Scientific Directorate headquarters and pointed out that practically all of these "newcomers" were strangers to him. Relatively speaking, informant said it was difficult to locate the older and experienced personnel of this Directorate, whom he had known from previous associations. Informant pointed out that there have been no significant structural changes in the Scientific Directorate, although he noted there were several changes in personnel in supervisory positions (S) (u)

other than that one point mentioned above. Informant did not seem unhappy at having this article published, and, in fact, stated, "It was very nice." Although informant did not in any way say or indicate that he believed the FBI had a hand in publishing this article, it seemed clear to interviewing personnel that he did, in fact, by his comments and the inflections of his voice, believe that we had been behind the publishing of the article. In commenting on the Scientific Directorate, the source stated it was his over-all impression that the personnel complement at Headquarters is much larger than it was a year ago, estimating that approximately 300 Staff Officers are currently working in that Directorate. These Staff Officers include all representatives who are affiliated with various committees and ministries in the USSR. The Scientific Directorate, according to our source, occupies rooms 827 through 838 on the eighth floor of the new KGB "yellow" Headquarters. (S)(u)

Source also advised that to his knowledge, while there have been no structural changes in the Scientific Directorate, there are many "new faces." (S)(u)
