Attached is a Xerox copy of State Department Foreign Service Despatch #26, 7/12/60, American Embassy, Moscow, describing suspected KGB personalities with whom American Embassy Officers and/or U.S. Secret Service personnel had contact during captioned visits to USSR. Also attached is a list containing descriptions and background set forth in Foreign Service Despatch; however, the rank and reported KGB affiliation has been omitted from the list. Where available, photos believed to be of some of these individuals also have been included; however, the absence of specific background information makes it difficult to determine if some individuals described therein are identical with photos included. In such instances, the name and description of a Soviet described in the Foreign Service Despatch is followed by the name and birth data of a Soviet depicted in a photo who may be identical with the individual of similar name. Also included in the attached list are the names and photographs of Soviet aircraft crew members scheduled to accompany NIXON to and from the USSR. (u)

In early 1962 [redacted] advised that [redacted] had previously developed and handled an American who is a correspondent in the Washington, D.C. area and who had visited the Soviet Union during the same time that former Vice-President NIXON had made his trip to the Soviet Union several years ago. [redacted] indicated that at the time of this trip, this correspondent had been contacted in the USSR and had agreed to cooperate with the Soviets in furnishing to them political information. This discussion with the correspondent had taken place in Siberia. [redacted] described this individual as a source for political information rather than an agent. He told [redacted] that he recently turned this individual over to [redacted] who had been instructed to concentrate all of his efforts on this individual. The memorandum is classified "Secret" since it contains information from CIA so classified. The informant SAMMY mentioned throughout the memorandum is YURI NOSENKO (X)(S)

The enclosed memorandum contains a compilation of cases furnished by SAMMY regarding [REDACTED] furnished by CIA under SAMMY caption. It is not known if this constitutes all such cases furnished by SAMMY during initial interviews and subsequent hostile interrogations. In very few instances has CIA furnished details regarding investigation to corroborate this data and it is not known if CIA has attempted to corroborate many of these cases furnished by SAMMY. *(S)*

It appears that about [REDACTED] of these cases have been first uncovered during the late 1967-1968 interviews of SAMMY and represent new cases, which suggests that SAMMY was not interviewed in depth on these matters in the past. *(X)(S)*

With a few exceptions, these cases were not discussed in the CIA paper entitled "The Examination of the Bona Fides of a KGB Defector", which was forwarded to WFO by Bulet 2/29/68. It is felt that an analysis of these cases is important for the continued examination of the bona fides of SAMMY; therefore it is requested that the Bureau through appropriate liaison channels obtain the results of CIA efforts to corroborate SAMMY's information regarding these cases. (S)(u)

In addition to the assistance in evaluating SAMMY's bona fides, some of these cases may be of more specific interest to the Bureau. As an example, the data
