ALSO SUBMITTED:

 Nine boxes of caliber .243 Winchester ammunition

Results of examination:

Debris found on the face of the bolt of the Q72 rifle shows that this rifle has not been fired recently. The debris has been present for a considerable length of time and this weapon probably has not been fired since manufacture.

The Memphis Office submitted a .30-06 Springfield caliber Remington Model 760 rifle, Serial Number 461476, to the Laboratory in connection with this case. A Redfield telescope sight is mounted on this rifle. No marks were found on the telescope sight tube and, therefore, the telescope sight mount, Q73, cannot be associated with this sight tube. on the basis of a toolmark examination. Therefore, it was not possible to determine whether or not the telescope sight was ever on the telescope mount.
