FD-36 (Rev. 5-22-64) FBI Date: Transmit the following in (Type in plaintext or code) Via (Priority) ME# 44-1987 Request that Laboratory prior to conducting its examinations arrange for COMBS to view tape. In addition, there is submitted herewith one board which is part of a window sill in window of bathroom at 4221 South Main, from which it appears that fatal shot was fired. Laboratory requested to examine board to ascertain any possibility of breech powder burns or any other identifiable markings that may be made by weapon in question. Possibility that recoil marks may appear on board. Texture of board was such that no latents of significance could be developed. Suggest however that the Bureau reexamine for possibility latents might be developed by FBI. . In addition, there is submitted herewith five cards appropriately identified of various latents lifted by representatives of the Memphis PD. These latents should be examined against any latents developed in examinations conducted by FBI. 1 50 4/6 Supro O'Keefe advised that SAC Jenson wanted landry topes processed for hat but not until after Combo have seen them. -2-Approved: Sent Special Agent in Charge
