Dear Mr. Huff, appeal

Although there is nothing within my experience with OIP that leads me to believe that it, you and your associates, intend other than to make use of FOI/EA difficult and costly and that you misuse the Acts into means of withholding rather than the legislative intent of disclosing, I attach as part of long ignored appeals my today's letter to Emil Moschella of the FBI FOIPA section.

I am not enclosing Mr. Moschella's letter to Mr. Lesar that I refer to because you people pay no attention to anything anyway.

When I called to your attention violation of both FOIA and PA in the FBI's disclosures of records relating to me to another without seeking or getting my approval your reply was there is nothing you can do.

Well, you are as hell withhold from me!!! But not others, when it defames me and violates the law?

If as I believe there was violation of a criminal provision of the Privacy Act are you not also accessories?

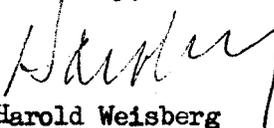

This appeal also relates to the withholding from me of records relating to me that I have requested repeatedly and appealed repeatedly since 1975, including in the recent past, when you conferred with the FBI pretending you did not have the date of the disclosure in question when it was in what I wrote you.

It also relates to my ignored appeals relating to my long-ignored requests for information relating to Yuri Nosenko.

When last I wrote you replied you did not know what I was talking about and you conferred with the FBI, which also apparently can't understand plain English in what is before it.

If you have any questions when you receive this, confer as you would like internally but please also ask me, without wasting six or more months, so I can take you by the hand and lead you across the street. *

Sincerely,

Harold Weisberg

*Assuming, of course, that you don't continue to have red lights on all corners.
