On the evening of 2/26/67 informant called the writer at his home. This is not unusual as [redacted] calls frequently strictly on a friendship basis. On the 2/26/67 call he talked about having known Dave Ferris casually when Ferris was doing work for G. Wray Gill. [redacted] said Mr Ferris was a homosexual, took pop pills and lived in a dream world and continually discussed "wild schemes" and in effect attempted to give the impression of being a "soldier of fortune". He never discussed an assassination plot of anykind with informant.

Informant stated the reason for his call was to advise that a person who would know a lot about Ferris activities and movements during 1963 would be a Morris Brownlee whose last known address to informant was 4728 Jefferson Highway, New Orleans. He said Brownlee was a homosexual, dope addict and who had worked for G. Wray Gill doing investigations in 1963 to work off money owed Gill for a narcotics charge that Gill had helped him on....

Indices shows two references to Brownlee. One is 89-69-702 concerning a FD 302 interview with NOPD Vic Sqd. Detective Fred O'Sullivan who during the interview said that a Morris Brownlee of Jefferson Highway would know background on Dave Ferris. The other reference is 173-99-7 showing that a Morris Brownlee of 4728 Jefferson Highway was one of those arrested by the NOPD at the Quorum Club Esplanade Ave. in July of 1964....
