

JFK assassination records appeals → records transferred out of
62-109060

6/4/79

This may be an extra copy of a Changed To form for Serial 7449 that I sent you in the past when I raised questions about the eliminating of records from the so-called assassination file instead of making copies for duplicate filing elsewhere.

The Serial is one of the more recent. The date, 2/17/76 coincided with one of the several prior reviews of the file under FOIA request.

This is not the form used when there is a temporary transfer of entire files for Congressional Liaison for Congressional access.

records
However, the ~~files~~ surrounding this Serial relate to Senstudy and something provided to David Schoemaker.

It is not easy to believe that at this relatively late date the file clerks misfiled in the assassination file what did not belong there.

I therefore request a check to determine whether in fact the record should have been disclosed as part of the 62-109060 releases.
