To takin Shea from Harold Heisburg, JPK-46 records 1/19/81

Attached is the 1/27/81 letter from Deputy Associate Attorney General Ford pertaining to six pages of records that originated in the office of the AG. They are withheld under claim to (b)(5), as The-decisional communications.

I an under the impression that ell pre-decisional records are not appropriate for the (b)(5) claim and that recent court decisions draw a closer line.

There is no claim that may believely test was made or that not a word on these six pages can be released as reasonably cogregable.

There was not that such litigation pertaining to the JFK case but with regard to the Mag case and the purchase of the Casald rifle and full matters pre-decisional communications have been disclosed.

While the (b)(5) claim is made for even the subject matter, and that does not appear to be up repriate. I think it is possible to question the appropriateness of both the claim and the totality of withholding so it pertains to the assessmention and its investigation and I therefore appeal. I ask you in reviewing these pages to bear in mind the historical case standards that should apply, the passing of so such time, the public interest in the subject matter and the AC(s can statements about the fallness of disclosures to be sade in this case.
