

# Warren Data— Silence for 75 Years

## IN THE NATION—

ⒸThe assassination. Evidence and testimony before the Warren Commission on the assassination of President Kennedy has been stored in the National Archives to be kept from the public for 75 years. *Meaning: The complete story as assembled by the commission will not "be known in our lifetime."* Outlook: Details may never be known by the public—frequently witnesses were allowed to talk off the record, their testimony presumably unrecorded. *Reasons for the 75-year lock: To protect the innocent, national security. Story, [Page 3]*
