

Situation

Many writers now openly speculate that the Russians have agitated the situation in Israel-Egypt to put pressure on the United States in Vietnam. This may be true, but isn't it rather unfair on the part of the Russians towards the American Fascists? Surely the American Fascists cannot fight with the Jews. On the other hand, can they fight for the Arabs on the side of the Communists?

Ticklish situation, but we suppose it can be overcome by the Fascists.
