**Building Used by
Kennedy Sniper
to Be Auctioned**

DALLAS (AP)—The brick building from which a sniper shot and killed President John F. Kennedy Nov. 22, 1963, will be sold at auction April 16.

The first four floors of the seven-story building now house the Texas School Book Depository, which has just completed its own warehouse. The upper three stories are vacant.

Real estate men said construction of a new skyscraper and a new county courthouse in the neighborhood prompted a decision by the Dallas Trust Corp. to sell the building.
