The Aviary  
[Hawkus Caucus Americanus]

Howard Chaykin

[see inside cover]

## SOREL'S BESTIARY

**The A**

(*Hawkus Cauci*)

1. **CARDINAL HAWK** (*Pox Americanus*) A bird of pray. Warbles softly but carries a big crucifix.
2. **JINGO HAWK** (*Luce Loquatus*) Found only in cold-war climate since Time immemorial.
3. **THE NOLAND HAWK** (*Tribunis Censoris*) From its nest high above western blackbird ghettos, its shrill cackle carries its message for miles around.
4. **MOCKINGBIRD** (*Hopus Peripateticus*) Now starling in "The Road to Armageddon."
5. **KHAKI-BREASTED HAWK** (*Maximus T. Minimus*) Usually found nesting in defoliated trees. Because it likes to do its own defoliation it suffers from Napalm breath.
6. **HOLDOVER HAWK** (*McBundus Noncommittus*) With the opening of hawk-hunting season it flapped off to the Ford aviary.
7. **PHOENIX** (*Extremis Extincta*) Its motto: "All the way with LBJ."
8. **HENRY CABOTHAWK** (*Dodo Obsequious*) Blinded from flying too close to God, this bird pecks its way along by the light of burning Buddhists.
9. **FORD'S FALCON** (*MacNamechanicus*) Cross-breed created by mating a computer with a push-button-drive.
10. **THUNDERBIRD** (*Geraldfordus Acceleratus*) Uncommon variety of overkill-for-peace species found along the Potomac, along with such other Senatehawks as the *Longus Windus* and the *Symingtus Militarus*.

**viary**  
(*s Americanus*)

**NUMBER 5**

11. RUSKBILLED SINOHAWK (*Hawkus Uberalles*) Recognized by its Dulles-coloured feathers.

12. HICKHAWK (*Consensus Offensis*) Its motto: "In your heart you know I'm right."

13. MYNOR BIRD (*Ovum Exliberalis*) Flutter, Flutter, Flutter, Flop.

14. CHICKENHAWK (*Meany Laborius*) When it comes to full employment there's no such thing as a bad war or a good peace.

15. HALOHAWK (*Grahamquacker*) All pray and no work makes Billy a dull bird.

16. SUPERHAWK (*Curtus Dismay*) Faster than a speeding bullet; more powerful than a locomotive; able to leap tall buildings with a single bomb.

17. WILDCRESTED FICKLEHAWK (*Mellifluous Filiblusterus*) A strange breed that flaps its tongue instead of its wings (probably because of the special interest groups under them). Often seen with the THUNDERBIRD.

18. DANDY HAWK (*Achesonia Emeritus*) Although not often seen, it is easily recognized by its brilliant plumage and fawning manner. Flies highest in the cooler warwinds, carrying greens to the nests of bankerbirds.

19. BUCK-BILLED SOPHISTHAWK (*Snidus Semanticus*) It may disagree with what you have to say, but will defend to your death its right to throw you in a concentration camp.
