PS

Yes, I would like to get copies of Meagher's book and The Warren Report too. Can you send me addresses for the publishers you mention (Vintage and Barnes & Noble) If I were to order these books here it would take up to a year before they arrived in NZ. Or can you give me a good bookseller if publishers are not likely to retail themselves.

Many thanks,

## CIA wants doubts removed

Central Intelligence Agency director Robert Gates said yesterday that making public its documents on Lee Harvey Oswald was the first step in his efforts to clear the agency of suspicion in President John Kennedy's assassination. He also criticised the movie JFK.
