

8/6/93

Jim Lesar
918 F St., NW #509
Washington, DC 20004

Dear Jim,

My friend Dal Mc^Guirk, # 93 Pah Road, Epsom, Auckland 1003, New Zealand, plans a JFK assassination article for the anniversary. He ~~has~~^{has} asked me for copies of three pictures I cannot now provide. I write on the chance AARC has copies and can send them to him. If you can, let me know the cost.

One of the Moorman picture. I've loaned mine to Gary Mack so I can't have a copy of it made for him.

The other two I've published and my prints are packed away with the copy for two books. One is the Altgens picture, of which he wants the complete negative printed. The other is side views of CE 399.

I think for his purposes he'll want the lands and groove markings to be clear plus the slight^o flattening and the nick where the copper-alloy specimen was removed for spectrographic analysis.

I hope you did not forget you were going to have someone at AARC send me ^u that it has on the comings books and that they will keep it up.

Thanks and out best,

Harold
