Dear Andrew

Many thanks for your most impressive catalogue received last month. Sorry not to get back to you earlier but I have been waiting to see what books were coming from sources I had earlier enlisted to help, such as Harold Weisberg and friends in Seattle who had been looking through second hand bookshops there for me.

So, now I can give you a firm order. I realise you will not still have all these in stock, but I trust you can take my order and sell me copies as and when they are available. I have taken the item numbers and prices from your catalogue #20.

and not listed in your catalogue #20, a book I am specially keen to acquire, by Seth Kantor, either by its original title, Who was Jack Ruby ? or under its later title as published by Zebra, The Ruby Cover-Up.

In every case where you have one or more editions of a book available, I would ask you to send me the cheap edition. Where you may have an earlier and a later edition, I would opt for the later or the revised edition. I am not a collector of fine books. I wish to use these books, to read them, and as long as they are in sound condition and readable I will be happy.

Please mail me records or audio/Video cassettes by air, and all books and newspapers/magazines/photocopies by seairmail.

Do you sell VHS Video cassettes that are compatible with the European PAL system that we use here in NZ? Tapes that come here straight from the States cannot be played on VCRs in NZ, and it is expensive to have these Stateside tapes translated onto tapes that will play on our VHS system. If your answer is 'yes', please let me know which video cassette tapes you can supply (and audio tapes too).

Please charge purchases to my VISA card, details of which are as follows;

D.J. McGUIRK, card # 4999 006 969 959, exp. date: 02/95

Please let me know what you are able to supply, and what you are sending on to me. I look forward to hearing from you soon.

With greetings and best wishes from New Zealand Aotearoa.

Yours faithfully

Dal McGuirk
