COPY FOR
HAROLD

Prof. David Wrone
1518 Blackberry Lane
Stevens Point, WI
U.S.A. 54481

Dear Professor Wrone

I have been given the very good news by Harold Weisberg that you picked up a copy of Howard Roffman's book for me. I know this may well be a spare copy from your collection, and I realise my debt to you. Thank YOU. I owe you a large favour! Would you please post the book to me, by seaimail, and let me know what I owe you to cover the cost of the book and postage.

I am sure Harold has already told you I have had discussions with the commissioning editor for MacMillans Publishers in NZ concerning writing a high school history text book covering the JFK assassination and its aftermath. Things at this stage look pretty good, as far as a market for the book in NZ and Australia goes. I am going to enlarge the work I was doing to prepare for my lectures next year to put into text book form.

I would not even be able to begin such a project as this book if it had not been for the support I am getting from Harold, and it will really be his book more than mine. I shall be taking large portions of the textbook straight from Harold's books, with Harold fulfilling a sort of editorial role.

However, what I do not have is access to photos that I could use as illustrations. Harold tells me you have a file of his photos, ones he passed on to you years back. Are you able to easily find these photos? I ordered a number of photos last year from the Assassinations Archives and Research Centre in Washington D.C., and even sent money to pay for them, but had no reply. (Harold told me the Centre has lately had problems, I do not expect their early response to my request). Please let me know if you may be able to help with photos. There is no rush, I would not need them until next year.

In haste, again- many thanks for the Roffman book! With warm regards, and greetings from New Zealand Aotearoa.

Yours faithfully

Dal McGuirk
