Re: JFK Slides

1. View of Dealey Plaza. Important to point out the tall buildings surrounding parts of the Plaza. Ideal for snipers./
2. JFK "neck" wound –The WC version/ as described by the Bethesda prosecutors.
3. JFK head shot This is WC version
4. Body chart by prosecutors. Notice where they place the "neck" wound
5. Neck wound covered by tracheotomy performed by Dr. Malcolm Perry. Mention here that Perry and assisting Drs. Like Carrico who headed up the trauma rooms and the nurses in the room all called this a wound of entry. The first press conference of the JBJ administration was held in Dallas and Perry reported twice that it was a wound of entry w/ no contradictions from the other drs.
6. DOX of location of JFK head wound. These are artist's drawings for the HSCA in 1978.
7. DOX of location of head wound again
8. DOX of JFK's back wound.
9. DOX of ibid.
10. Ad. Burkeley's Death Certificate. He places the back wound at the third thoracic
11. vertebrae. Thoracic is chest not neck. Interestingly enough, the WC Report and the 26 volumes do not have Burkeley's death certificate as a document worthy of their investigation!!!!
12. JFK blood-smeared shirt (front)
13. JFK's blood-smeared shirt—(back)
14. 6th floor corner of the TSBDB. The so-called "sniper's nest" Look at the low ledge under the windows. Check w/Brennan's testimony about seeing the shooter who either sitting or standing according to Brennan. Brennan's description is the one the police allegedly used to identify the shooter.
15. Stockade of books behind which the rifle was hidden.
16. Ibid. The rifle uncovered.

JFK Slides

Re: Page Two

17. The JFK tie (FBI version was that it was sliced in half by the exiting neck wound.
18. JFK collar. Can you match up the slits that the FBI alleged were made by an exiting bullet. (Another explanation more probable)
19. View of the base of CE # 399
20. Picture of CE #399 and alsood base of the bullet. (more on this later)
