### Oswald in Mexico City (Chpt 3 of BOT)

Some points to make:

[Qualification here: Was Lee Harvey Oswald actually in Mexico City. It is a question up for grabs. . . . Something the WC should have nailed down one way or another. Instead it assigned this task to Assistant Counsels Wm. Coleman and W. David Slawson. Both were patsies for the CIA. . . .Slawson was transfixed by the romance of spookery. . . . They simply parroted what the CIA station chief Win Scott told them . . . .In short: The WC essentially dismissed Oswald in Mexico as having nothing of import in determining the facts of the Kennedy assassination.

For them it was an empty hole. No need to do any digging.

When, in fact, Mexico City may have been the answer or a great part of the solution to The Puzzle inside an Enigma wrapped in a Mystery that was the Kennedy assassination.

@ Oswald w/ no apparent limitless supply of \$\$\$\$ when he set off to get a travel visa to Cuba, spend a week or two checking out Castro's Marxist workshop, and then hopping a plane to the Soviet Union. Its all crap.

@ Oswald making contact with Valery Kostikov. . . .According to Mexico City CIA Kostikov was the Soviet's top wet acts agent in the Western Hemisphere (assassination specialist).

@ We have Oswald on speaking to Russian personnel at the Soviet Embassy in broken Russian. When Peter Gregory, a Russian translator for the CIA, told the FBI that Oswald's command of Russian was perfect enough for him to be a translator himself.

P. 2

@ Then we have the Alvarado Ugarte story: Oswald taking \$5,000 to assassinate the president of the US. . . . This took place outside the Cuban Consulate while Alvarado just came out of the Men's room in time to see the red-haired black Cuban slipping "Oswald" the blood money . . . . He describes Oswald as packing heat. . . .

All of this exchange in taking place al fresco!!!!!! This is how unspeakable high crimes and the blackest of horrendous acts of international thuggery are routinely conducted outside of public bathrooms. . . . .

@ This account grabs the attention of the US Ambassador Thomas Mann who now bombards the State Department and anyone else who will listen about this Mexico City Red Plot to assassinate the 35<sup>th</sup> president of the United States.

Is he getting encouragement from the CIA Station Chief and other CIA high-fliers working out of the MC station.

This crowd never bothers to check whether Oswald was in Mexico City on September 18<sup>th</sup>. . . . of course he was not. . . The "Red Plot" was flaming out. . .

Move by LBJ and Hoover to kill all rumors of a Havana-Kremlin Plot to kill President Kennedy. Part of this initiative was the leaking of the FBI Report on the Kennedy assassination CD-1 to the national press. . . . Oswald was the lone assassin not conspiracy.

CD -1 was also previewed by State Department and highly placed CIA officials before it was released to the Warren Commission.

This left the 11/24 Hoover-LBJ phone conversation in which Hoover told LBJ that FBI agents in Dallas who were questioning Oswald, the accused assassin of JFK, had been listening to the tape of an alleged "Oswald" phone exchange with KGB

Valery Kostikov and that the person passing himself off as Oswald was not, in fact," Oswald. And the picture of the man leaving the Russian Embassy and identified by the CIA as Oswald was not Oswald.

What that clearly meant was that there was someone in Mexico City impersonating Oswald. . . . This was just one example of a false Oswald or Oswald impersonator. . . . Typical spook measures to build a false biography for an operative. . . .

This had to be handled. It required that the FBI agree that there really was no tape of a phone conversation between the false Oswald and Kostikov it was simply a transcript of the conversation . . . .blah, blah, blah. . . .It hurt Hoover deeply to have to let the hated CIA off the hook . . . .
