

Bronson Question

Re: Response to Ed Tatro

Pages from "Breach of Trust" pp. 17-18/ end note p. 376. Note 24

@ Bronson film confirms that the SE Corner 6th floor window (sniper's alleged nest was open at 12:24 P.M. (CST)

Caroline Arnold's FBI testimony that was "politically adjusted. . . She had reported seeing Oswald on 2nd floor or front of bldg at about 12:25. Also Oswald's own account was that he was approached by "SS" agents in from of the TSBD minutes after the shooting. . . he told them where they could find a phone in the building. This was Allman and Ford. See how Allman's testimony was handled by the SS after was dead and buried. That's in "Breach" . . pp. 115-116. . . and how the SS confirmed Oswald's account of "a SS man stopping him for re: info. for phone). . Oswald spoke to SS Kelly and told him about this face-to-face w/ an "SS" agent who flashed his credentials in a black wallet. The SS later spoke with Allman and were satisfied he was the guy Oswald was referring and the time of the encounter. No way he could have hidden the rifle behind that barricade of boxes and then fled down the stairs to the coke machine (and be calm and not strung out) when Dallas cop Butler confronted him. (Speculation: I am ready to believe that if Butler had confronted Oswald alone he would have killed him on the spot. I say this because the Dallas PD had Oswald in the frame for the death of JFK, Tippits and wounding of Connally written up and processed at 1:40 P.M. CST!!!! Capt. Stringfellow of Dallas PD intelligence squad and an active reservist member of Military Intelligence at 112the in San Antonio. On 11/22 at about 7:00 P.M Stringfellow has Oswald "confessing to killing Kennedy" . . .

WPM
Wells

.This confirmatory account interested the SS only in that it dismissed the possibility that an unauthorized person was flashing a SS badge. That it was substantive confirming evidence that Oswald was not on the 6th floor at the sniper's nest. Check also Caroline Arnold's account to Earl Golz in "Breach" about the F BI "rewriting her statement" and adjusted the times to fit the time conditions to drop Oswald in the bag.

Then we Bonnie Ray Williams account. He was eating his lunch on the 6th floor and did not leave until about 12:20. . . .That only gave Oswald 10 minutes to set up his "sniper's nest" and prepare to enter history. The FBI and WC and/or both had to "adjust William's account. If memory serves they claimed that he left the 6th floor at 12:10 or something like that.

What do you do with the WC's "star witness" Brennan. In reality the only Commission staffers who championed Brennan to the bitter end were Belin and Joe Ball. The rest of the Commissioners (and Rankin) were embarrassed to sign on to his preposterous and contradictory testimony. Just look as the lukewarm way the WC cites him in the Report.

Framing Oswald: The official account that he was the only SBD worker to leave the scene of the crime w/o reporting in to the Dallas police. I cite a document in my Preface FBI record 62,109060-2720 EFB that there was at LEAST 17 other TSBD workers who left the crime scene w/o reporting to the police.

I would just add one other point that puts the indictment against the authorities in a steel cage from which there is no escape: The business that Oswald's 11 hours of interrogation by Fritz and SS and FBI agents was all captured on tape. No question. I have documented

evidence that after Oswald was assassinated the SS stepped in and gathered up Marina, Oswald's mother, and brother Robert and took them to the Inn of Six Flags in Arlington. After diner two SS agents grilled Marina for 8 hours and it was all on tape. The tape was flown that evening on early morning hours of the 25th to SS Hqers in WDC.

We can be sure that all 11 hours of Lee's interrogation was captured on tape as well. All of it down the Memory Hole I suppose.

check on Hosty's Book
He admits how he took
note of the interrogations

Final Remarks -
= as to J.D. "bagging out" on
Breendonk film implications -
The J.D. folks tell this story
The assumed role of J.D. was
to clear the path for any
contradictions or contestation of the
the report's conclusions -
This is a clip. I ~~do~~ hope to have
any energy to write.
