Key Chronology according to Drain

Doc # 2 Here is key chronology according to Drain on evidence transfer from Dallas to FBI HQers in WDC (105-82555-505 (sect. 21). He does not indicate the volume of alleged evidence that was transferred from Dallas to FBI HQers and returned to Dallas . . . No accounting of the volume of the evidence that was shipped on 11/23 at 3:10 a.m. on 11/23 arrived in WDC at 6:30 a.m. He was not accompanied by any member of the Dallas police (no account of control over the evidence by the office of record). . . He was accompanied by SS Agent Winston Lawson. Evidence was returned to Dallas on 11/23 arriving in Dallas on 11/24 & returned to Dallas Police Chief Curry. . . on 11/24. . . (Oswald was killed) and the evidence until 3:40 p.m. when Drain turned it over to Curry.

Doc. 2 provides a list of all the alleged evidence that was returned to Dallas.

Note*** There is much here in the Drain 105 document that exonerates Oswald***

Doc. 4 FBI WDC to Police Chief Curry 11/23/'63 JFK Dallas Police Dept. Collection Records of City of Dallas Municipal Archives, Box 3, Folder 22. . . This report from FBI Lab makes no evidence case against Oswald that would have nailed him as JFK's assassin. Something more decisive needed. . .

Doc. 5 Note that Drain was never questioned by the WC. . . This doc. demonstrates that the evidence against LHO was not convincing. . .

Doc. 7 Curry's examination by Dulles Vol. 4 of Hearings. . . (but no p. No. I need to correct). . . Dulles is shocked when Curry notes no Dallas PD personnel accompanied Drain and the evidence to WDC on 11/23. . . The chain of custody was violated. . . Dulles saw this immediately but moved on with the interrogation . . . Curry noted in passing that there was at least 400 individual pieces of evidence . . . Curry noted that it was "someone in high authority who insisted on the transfer of evidence to FBI HQers in WDC. . .

*Note - Drain
picked up evidence
at 3:40 CST

OSWALD AS SOLE SUSPECT /Drain's account, P. 2

7C Hoover agrees that FBI should take control of the evidence in the case less (now that it is all mooted) it might begin to disappear if it remained with the Dallas police, etc. . . Katz and Ast Att. General Herbert J. Milleragreed. Noted that local police in Dallas wanted to be relieved of the burden, etc ,. . . .("Suggestion" came from LBJ/Hoover). . .

8. Cadigan interviewed by Eisenberg speculated that there must have been 4 to 500 pieces of evidence

10. Hoover to LBJ 11/23 at 10:00 A.M. evidence against Oswald not very very strong."

11. Rosen to Belmont 11/23/'63 62-109060-106 (sect. 106) Notes that Shanklin assured that SA Drain will insure the continuity of evidence. Which never happened. . .

12. Key Drain report 11/26/'63 105-82555-505 (section 21) Drain records that he received from Lt. Day on 11/26/'63 photos of Oswald's fingerprint or palm print from trigger guard of a rifle. . . (This is first suggestion of planted Oswald print on K1. . . (More to come on this). .
