

Programming Early Evidence –Folder # Z

Folder w/ Day Palm Print material (Chapter to be) . . .

1, Michael Griffith piece on Day and lifting the print off K1 (or pics of K1). . . .the time cited here is from Daybut conflicts with my 3:45 P.M. Read Griffith carefully. . . good material. .

2. Citation RG 65, Box 56, Section 149, Folder 2 Where it notes that Drain picked up K1 at 3:40 P.M. Can we assume that meant that Day no longer had access to the rifle. . . .

3. Drain note 105-82555-505 (section 21) Probably part of a report by what's his face???? (Gemberling). That says Drain received 3 negatives of palm print from trigger guard from K1. . .

4. Review of "Tainting Evidence". . . Case studies of the incompetence and political slant of evidence evaluation from the vaunted FBI Crime Lab. . . Also my notes from the report and from the book. . . .I probably should do a quick read of the book . . .

5. Dallas Police record of evidence returned to Drain on 11/26'67 at 2:00 P.M. 62-109060-6028. . . .partial prints of Oswald from K1. . .

6. FBI document 62-109060-40 notes 11/23/'63 of evidence received by BuLab on 11/23 from Drain delivery. . . .p. 2 at end that 2 prints dusted but not lifted . . . appear on trigger guard left side of K1. . . .These were dusted by Day but not lifted.Was it possible Drain took the rifle before Day could lift them???

7 & 8 Responses re: Day lift of palm print. One is Rankin to Hoover 8/28/'64 RG 65 Box 11C, Folder 79. . . The other is Liebler to Rankin 8/28/'64 RG 65 Box 111C Folder 79. . . .Both raises serious concerns about Day's lift of Oswald palm print from K1. . .

9. RG 65 Box111B, Folder 56 11/23/'63 page 5 cites the delivery of K1to BuLab on 11/23 then returned to FBI Dallas on 11/23 (to Day); then returned to FBI BuLab

Programming Early Evidence—Folder Z

10. p. 2 of document notes 62-109060-6028 Curry at 3:40 P.M. on 11/24 that Drain returned to Dallas PD several items among which was K1 (or SN c2766 also Dallas file 89-43-1A 34). . . On p. 3 receipt by Drain at 2:00 on this date 11/26 that Drain received evidence including K1 (or C2766) the 6.5 M/C rifle. . . . See also p. 5 in this batch 62-109060-6028 items returned to Dallas PD by Drain was rifle No. C 2766 (K1) . . . the time is 3:40 P.M. P. 6 Notes that list of items of evidence from Dallas Police Lab returned to Drain 11/26 including the alleged Oswald rifle K1 (C 2766) . . . also partial palm print from underside of gun barrel near end of foregrip” on C 2766 and negatives of partial prints “found on trigger housing of rifle C 2766. . . Here we get in capsulated form how C 2766 WAS IN THE HANDS of Day on 11/24 (Sunday when Oswald was killed). . . and returned to Drain on 11/26. . . . what is puzzling is the time 2:00 P.M. on 11/26 . . . *****

11. RG 65 Box 111C/F. 79 May want to review. . .

on 11/27. . . . (Day had chance to lift Oswald’s palm print from his dead corpse. . .
10.
