

NOTE WITH Oswald Imposter Batch "B."

See Batch "B" letyter "K" for Hal's comments. Use these to formulate an approach to this matter. In his 5/25/72 letter to Jones Harris in which he lays ground work for the WC's lengths it went to avoid dealing with this issue. He gives WCR citations that I need to check out. This to substantiate the fact that the WC was aware of this aspect of the case and did nothing.

Did the WC have the Bolton Ford story? He says in Doc. K that the FBI withheld the documentation supporting this story from the Commission. Reason to check out the citations on the following document in Batch "B."

Also I need to check out WW I or WW II for Hal's writing on the Oswald impostor.

*Pr. Dozens of these stories of an Oswald impostor -  
I am dealing only with those that were credible  
enough to deserve an ~~investigative~~ investigative effort*

NOTE WITH Oswald Imposter Batch "B."

See Batch "B" letyter "K" for Hal's comments. Use these to formulate an approach to this matter. Also I need to check out WW I or WW II for Hal's writing on the Oswald impostor.

Note there were dozens of accounts of an Oswald impostor . I am only dealing with those that were credible enough to have warranted the WC's interest (if they knew of them) to investigate.

In one of these Batches there are news stories in which WC assistant counselors reported not being apprised of the Oswald impostor stories. The one that drew most comment was the Hoover note to the SD about a possible impostor holding Oswald's birth certificate/ or passport. Slawson in one press story said he never heard of this while Willens said he thought he had, etc. . . .
