

Day Chapter (This is labeled "Back Up Copy" Of Chapter 5. . . .

The first 19 pages of the old Chapter 5 are for use with a chapter on Day and Oswald's prints off the alleged assassination rifle. As far as I can tell the writing is fine. . . .but where I can add will included (1) the lifting of O's prints off his dead body at the funeral home. This was not part of the old chapter. The footnotes stop at 32. (They appear to fit w/ the text). THERE ARE 3 COPIES OF UNPUBLISHED CHPTS ON Day and the alleged lift of O's prints.

My immediate impression is that this unpublished Day material is ready to be used. I have to add business of lifting prints off the dead Oswald on 11/24. . . .at the funeral home. Check with Henry Hurt, "Reasonable Doubt" 106-ff. . .

Note under Key Docs. ^{NAME?} RG 65, Box 56, Section 149, Folder 2, NARA notes that on 11/24 at 3:40 P.M. CST Drain took possession of 1Rifle C2766 (this is the alleged murder weapon) from BuLab in WDC and transported this and other forensic evidence in the case see the document for the listings. . . Drain then fly this evidence package to Dallas. . . .The point here is that the rifle was back in the hands of Day and Dallas police (and FBI) and the dead Oswald was available to lift his finger prints for the rifle and palm prints for the boxes, if needed. . . .The other citations are 62-109060-6028-(B) (3) 124-10059-10440One document filed with this unpub'ed chapter.

Note: Related: page on Walker bullet. Day writes up the Walker bullet as copper jacketed. . . .The Dallas cops who retrieved the bullet from Walker's house described it as steel jacketed. . . .Here we have case where I have to examine the Walker bullet at NARA. . . .to see if Day's is the only initials on the slug. . .

Walker bullet: doc. # 7 Note: Walker slug withheld by Govt. despite Walker's request for possessionSimple answer: The official Walker bullet is a lead bullet that could have come from the alleged Oswald rifle.. . It is lead and not a steel bullet. Filed with Day Chpt. labeled "Back Up Copy."

Sheet*** Day Palm Print *** key stuff. . .

Day Palm Print Files

1. Unpublished chpt. 5 of my BOT
2. Official Statements about prints on (1) the clip [do I have anything on the evasive clip]?; Paper sack (Day came up w/ nothing; but FBI alleges a print life belonging to Oswald (3) RIFLE: Have the reverse: FBI could find no print but Day does. . . But see Latona's barley contained skepticism on this . . .All 3 cites are cited, , . . .
3. Day's claim of location of Oswald palm print "under gun barrel near end of the fore grip."
4. Liebler asks some key questions about the Day lift of a palm print. . .see the checks. . .
5. Liebler to Rankin 8/26/'64 Asks some key questions that reflected his deep suspicion about Day's account of the lift of the palm print. . . He was joined in this by Griffith and Slawson . . .
6. Series of questions Rankin raises w/ Hoover 9/1/'64 getting late to have these suspicions. . .
7. . Oswald's hair samples tested by FBI lab. . .
8. K1 returned to Day on 11/23 . . .Latona could find no Oswald prints on rifle
9. Same doc as 8 but notes clearly that K1 sent back to Lt Day on 11/23 *****
10. See Rankin to Hoover 8/1/'64 in response to Liebler's 8/26/'64 note
11. Note RG 65, Box 56, Section 149, Folder 2 notes that Drain took possession of the rifle (K1/ or C 2766). . .at 3:40 CST. . . This invalidates Day's account. . . If Day received the rifle back on 11/23 he had time to lift a palm print off the corpse of Oswald held at the funeral home. . .See Hall on this and cites from book in my stacks.. .Livingstone's "First Day Evidence" key source
12. Useful notes from DiEugenio pages on this subject of the Day life. . .he goes into Day lifting the palm print (and finger prints)off Oswald's corpse. . .consistent w/ speculations of Hall . . .

pages Hoover's Section

11/24 after Oswald's death

24th

Hit on 11/23 from Oswald's death was planned by capo

Why do I on it with 11/23 was 11/24
