

EE (F. 6)

Folder 6

1. Dallas Police Arrest Report on 11/22 at 1:40 P.M. (CST) charged LHO with the murder of JFK and wounding of Connally.
2. Multiple pages of early evidence file...Worth a review
3. NY Times Herbers piece on 11/27. . . .full of alleged facts of the case. . . .Contains Champ Clark's description of JFK's wounds. . . He has JFK hit from the front at the tie level . . .and bullet did not exit. . .and wound to his head that was fatal . . .Notes: That Dallas police announced that they were turning over all the evidence to the FBI. This was all part of the fiction that FBI did not get evidence until 11/27/'63. . . Clark et all all loose ends that had to be tied up in a neat little ball . . Hoover/LBJ headache with Mexico City matters.
4. FBI report 3/20/'64 on the limo's windshield. . . .insisting that the shot that made hole in the windshield came from the rear. . .
5. SAC, Dallas to Director 3/14/'64 recovery of the 3 other slugs from Tippit's body. . . .FBI needs in a hurry . . .coming to FBI HQers by registered mail . . See order to "EXPEDITE" some almost 4 months after Tippit shooting. .
6. \*\*\*\*Griffith to Conrad 4/3/'64 Makes the point that Cadigan's testimony before WC (Dulles the only member present) on this April 3 date that the paper bag was compatible with the paper at the TSBD (under West's control). Somewhere I have seen Hal's statement that Cadigan said just the reverse\*\*\*\*\* Point here is that I need to check Cadigan's WC testimony for 4/3/'64
7. Jevons to Conrad 3/10/'64 It is a duplicate set of docs that are filed elsewhere laying out the "escape hatch" argument that the NAA tests on Oswald's paraffin casts were compromised by fact that he shot his revolver after he had fired on the president. . . .Its all bullshit. . . .and it's the escape hatch for Gallagher and Redlich in their September one-on-one. . . (My counter argument is that there is no evidence that Oswald shot anyone especially, in this case, Tippit. . .
8. Hoover t Rankin 3/19/'64 . . . . Careful read of this gobblygook is required.

Blatant  
Sounding  
Edge*

EE (F.6)

P. 2

9. Note to myself about checking the "Tippit Shooting" folder in Drawer "A."
10. Gemberling Report (is referenced above in #8 by Hoover) notes that latent prints of value on LHO's revolver were NOT developed and also on the cartridge cases, the unfired cartridge, the clip in the rifle, or the inner parts of the rifle (K1). . . .Gemberling also notes that inside Q 10 (the package) did not display markings identifiable with the rifle (K1). Also he noted that the latent finger prints on K1 taken by the Dallas PD (Capt. Day) too fragmentary and indistinct to be of any value for identification purposes."  
\*\*\*\*\*
11. Jevons to Conrad 12/3/'63 Key here is the 4 .38 special caliber cartridge cases (inserted "believed to have been" found in the vicinity i=where Tippit was shot. . . Notes that the 4 cartridge cases were fired from the revolver taken from Oswald when apprehended  
But no latent prints were found on the cartridge cases or cartridges. What does all that mean? Evaluate by contrasting and comparing with other documents on the Tippit bullets. The important one would be the one removed from Tippit on 11/22 by Dr, Mollendorf at Methodist Hosp.
12. SAC, Director 3/14/'64 the other 3 Tippit bullets are recovered from Capt Fritz's files. . . . and FBI never bothered to track down . . .
13. FBI lab to Curry 11/23/1963 multipage listing of (some of the evidence) that was taken from Dallas Police on 11/22-23 by Drain . . .
