

Early Evidence/Folder # 1

Docs. 1-15 focus on Drain's removal of evidence from Dallas Police on 11/22 to FBI BuLab in WDC .

2. ARRB testimonies of Sibert & O'Neill – orders from FBI Baltimore Office from Ed Tully to collect evidence in the case. . . .This indicates that LBJ told Hoover to take over the case while the new president was in AF One on way back to WDC from Dallas. . . .

3. M Holland footnote which states that generally phone calls from AF -! Were not taped unless requested. . . .So the Hoover/LBJ phone conversation or conversations took place in privacy no record made. . .

4. Director to SAC, Dallas 11/25/'63 . . limb and public hairs found on blanket in Ruth Paine garage belonged to OswaldBy implications this was supposed to tie Oswald to the K1 which allegedly was wrapped in that blanket in Paine's garage. It was Maria who would make the case for the blanket holding the rifle. . . . The Paines, both Quakers and opposed to firearms never realized the blanket harbored a weapon!!!! That's both Ruth and her husband. . (62-109060-812 Sec 1.

5. Handley to Rosen 11/22/'63 Notes that Agent will bring the murder weapon to WDC and Agent Bolz would have lab ready to examine for latent prints . . .Note here that Frazier and Killion who will examine the rifle and the one bullet retrieved from stretcher will be delivered by Agent from WFO for examination.

6. Gemberling Report 105-82555-505 Sections 21,22, and 23 see pp. 116-189 for results of Lab results***** If necessary. . .

7.***** Dulles interviews Cadigan and the FBI lab man spills the beans about the "very large volume of evidence. . . ." that Drain brought on 11/23. That part of Cadigan's testimony was initially deleted. . . .When and why restored. Check w/ Armstrong . . . or Malcolm if he remembers

Early Evidence./Folder #1

Page 2

8. Evidence report from Gemberling Report cited in #6 above see p. 164 for fibers found in the butt of K1 these could have come from Oswald's shirt (the one he was arrested in). . .Also on p. 168 of G report it states that no fingerprints were located on the cartridge cases. So Oswald loaded the weapon with gloves on???? He certainly did not take time to wipe off the shells after they were ejected. How about the live round found in the chamber. Was this checked and was it clean of prints????*****

9. Hoover to LBJ 11/23/'64 10:01 A.M. phone call Notes that the K1 was already in the hands of FBI evidence people at BuLab . . .

10. Listing (Gemberling Report 105-82555-505 (section 21) ***** Key here is listing of all the evidence that Drain transported to BuLab in WDC and arrived by 7:30 A.M on 11/23. . . .Needs careful review. . . *****
