9-350

There is being sent to the Bureau, under separate cover, a faded blue, padded, cloth jacket, bearing a label "Six Jac", with zipper front. This jacket was recovered at the Texas School Book Depository building in Dallas, Texas, on 12/16/63. It was recovered from a room where various employees of the building left articles of clothing from time to time. This jacket has been exhibited to Mrs. MARINA OSWALD, wife of LEE HARVEY OSWALD, and she has positively identified it as being the property of LEE HARVEY OSWALD.

It is requested the FBI Laboratory examine this jacket for the presence of any hairs, or fibers, and if such is found, that they be compared with other hairs and fibers categorized in this case.

It is also requested an examination be conducted to determine if a residue of firearms powder is attached to the jacket, indicating possibly the jacket has been worn at the time a firearm has been discharged.

The Laboratory may retain this jacket until such time as all other evidence is returned to the Dallas Office.
