BT: Central Intelligence Report on the Assassination of John Kennedy

In response to the request made by your office on 24 February 1964, re: Lee Oswald's activities and assignments on behalf of this agency and Federal Bureau of Investigation, there follows a narrative summary of the internal subversive activities of the Oswald subject.

I recommend that unless the Commission makes a specific request for specific information contained herein, that this information not be volunteered. This agency has reason to assume that some junior Commission staff members may be potential sources of leaks to the news media or to other agencies; due to the highly sensitive nature of the enclosed material, it would certainly be in the national interest to withhold it at this time - unless there is, of course, a specific request made.

It is my understanding that Mr. Hoover has certain sensitive information within his agency, which has been transferred to his own personal files for safekeeping; he concurs that no material should be voluntarily given to the Commission which might affect the status of field operatives or their safety. He is particularly concerned about the De Bruyn memorandum, which Central Intelligence has obtained and which, I understand, you have obtained. It is imperative that this information, at least for the time, remain under wraps.

Oswald subject was trained by this agency, under cover of the Office of Naval Intelligence, for Soviet assignments. During preliminary training, in 1957, subject was active in aerial reconnaissance of mainland China and maintained a security clearance up to the "confidential" level. His military records during this period are open to your agency and I have directed they be forwarded to the Commission.

Subject received additional indoctrination at our own Camp Peary site from September 8 to October 17, 1958, and participated in a few relatively minor assignments until arrangements were made for his entry into the Soviet Union in September 1959. While in the Soviet Union, he was on special assignment in the area of Minsk. It would not be advantageous at this time to divulge the specifics of that assignment; however, if you wish this information, it can
