None of this reported to the SS. . . Filed w/ Wm. Walter files.
3. HSCA document. . . Raises some interesting questions about military personnel in Dallas on 11/22 and military intelligence backgrounds of Lawson, and DPD officers Lumkin, Adamcik, Gannaway, Revill. . . .some who helped plan the motorcade security/ / /Citing queries raised by P>D. Scott. . .

8. ARRB interview w/ Edward J. Coyle RG 541, Box 10 This is loaded/ military connections with Dallas DPespecially w/ Lt. Revill. .. and his strong anti-JFK private views (Was this typical of the other DPD element in counterintelligence. . . P. 12 the meaning of "Silver Dollar" implication could mean that S"D" stood for AF-2 which was up in the air after the assassination and should have been used to get LBJ and others up in the air in event of a massive attack following the assassination of the president. But this document is critical for revelations of Revill's political view of JFK. .

9. RG 541, Box 10, Wray to Gunn 6/10/1996 Deals w/ 112th INTC (intelligence group) station at San Antonio. P3 We get introduced to Col. Robert E. Jones. He notes that on 11/23 THE 112TH had "between 8 and 12 plainclothes agents in Dealey Plaza" . . . he could not recall what their assignments were (interesting). . . Jones served as operations officer for the 112 MI Group from June 1963 until January 1965. There is nothing in the Unit's history that outlines what role, if any, these intelligence officers role were, if any, in Dallas on 11/22/'63. Key point on p. 4 ARRB concluded after questioning SS that the only time military was used w/ security for president was when he was on military property. (notes one exception that more or less proved the rule) So why or how to account for military personnel in Dallas on 11/22???*Note Bouck in ARRB interview said he could not recall military personnel used for protection of pres since World War II.

10. Has some useful time lines on when Oswald was charged w/ Tippit killing (according to the WC) it was at 7:10 p.m. CST. . . Fritz signed complaint charging Oswald w/ JFK's murder at 1:35 a.m. CST on 11/23. .
11. Jim Marrs destroys the argument that Greer is the one who shot JFK. . .but he does insist that w. the first shot Greer brought the limo to an almost dead stop and did not accelerate until after the volley of shots ended. . .
