NOTE: Commission by relet advised that Mrs. Earlene Roberts, the housekeeper at 1028 North Beckley, Dallas, Texas, where Oswald resided at the time of the assassination, had reported that at about 1:00 p. m., on 11-22-63, Dallas police car Number 207 drove slowly by the front of her premises and honked the horn several times. The Dallas FD indicated that car 207 was not in the vicinity at this time. The Commission requests appropriate investigation to determine if any Dallas police cars were in the vicinity of the premises between the hours of 12:00 noon and 2:00 p. m., on 11-22-63. As you will recall, the President was killed at approximately 12:30 p. m. It was completely feasible for the police to learn Oswald's identity at approximately 12:47 p. m., and to learn he was missing from the Texas School Book Depository Building. The reason for any police car honking the horn in front of this address is unknown, however, it is entirely possible this was a car in plant to determine if Oswald returned to his home.
