CLOSE Backyard And Walker Photos

In your address of the Walker Shooting attributed to LHO, there are photos that are tied to C-146 (Imperial Reflex Duo Lens camera). If The Walker-LHO shooting linkage is destroyed, then the LHO backyard photos and walker house photos from this camera that were "found" in Paine's garage also folds. If these go down, then the search is compromised and the Dallas police are implicated in the "framing" of LHO.
