Re: Inventory of FBI Ticklers Released to Mark Allen, 2/19/'85

Page One

1. Hal's cover note

2. Quotes McCloy's comments ion CBS's "Face the Nation" on 7/2/'67 where McCloy charges that the WC did not see the photos and x-rays because the Kennedy family had them. This was a plain and outright lie. Check against Rankin's revelation in one of the EX Sess that the WC had the x-rays and photos.

3. Two-page summary of CBS program "Why Doesn't America Believe the WC Report?" date on doc. is 6/28/'67 This sounds like it was part of the CBS program that McCloy appeared on.

4. related to ibid. Two-page on the CBS program (page one is missing). McCloy interview is different. This is a CBS program w/ Cronkite as the Big Man on camera.

See also the report as appears in the Congressional Record.  
I only copied the first page of CR for citation purposes.

5. More FBI summary on CBS program

note: Most of this batch in folder is on the Garrison case

6. Hal note to Volume II in folder

7. Several Belmont transmittal notes re: material on Mark Lane was handed over to the WC. Tie any of this w/ C. Gentry's story about Lane and prostitutes, etc. ("pin head")

8. There is a R. Russell/FBI/Gen. Walker corres. about the shooting attempt on Walker. Dates are March 1970. Walker wrote to Russell on this. Indicated in letter about Police Chief Curry's book in which Curry writes that there was no evidence that LHO was the assassin. NOTE: Take a look at Curry book?)
