

EX SESS

Inventory of FBI Ticklers Released to Mark Allen 4/25/'85

Location: Hal's basement

Page One

1. Two news stories about Margueite appearance at Town Hall in Manhattan. Drew a large crowd of the curious.
2. More news stories on M. Oswald/Lane
3. Diector to SAC, Dallas 11/29/'65 're: Hoover orders DL FO and other FO to open a separate file on Oswald's mother. Noted as Doc. #32
4. Doc. called "Facts About Marina Oswald" re: Two things of note in this FBI report. (1) times they left Russia and by train to Amsterdam and the time they boarded ship for US (2) Marina's testimony that LHO overslept on Nov. 22 (almost late for his date w/ destiny.)
5. Two news stories re: Marina Oswald's phone tap and bugging not reported this to the WC. Belin reports if this was true "it strikes me as horrible." Belin being on staff may not have known. Evidence from Marina sur. file is that WC knew of the tap but not the bugging. Unless the FBI was lying on this as well.
