1. 8-page doc. entitled FBI Guidelines Governing Classification, declassification, and Marking Requirements. I copied only first few pages dealing with "Top Secret" classification and what it means under Ex. Order 11652. Useful w/ EX Sess being classified as "Top Secret"

2. Report by FBI Agent John W. Fain 4/27/'60 re: Oswald's mother sending him money order to Russia. Also interview w/ brother Robert. All early FBI interest in Oswald the "defector"

3. Sullivan to Belmont 5/13/'64 re: FBI policy w/ defectors to Soviet-Sino Bloc countries. When does FBI place them on Security Index? What was policy prior to the JFK assassination is mentioned.
