1. FBI statement on Nosenko sent to House Select Committee on Assassinations, US House of Representatives (HSCA) 9/14/'78 re:FBI response to interrogatives from HSCA. FBI reports that Nosenko, as far as bureau was concerned, was a bone fide defector and his defection was not attempt by Soviets to mask any involvment in JFK assassination.FBI intended to declassify the Nosenko interviews w. bureau.

2. The real value in this folder is the considerable stuff on James Billetti and the bugging incident. Hal should have copies in his Billetti file in basement. If I ever need I should check this batch against his subject index file.
