

Notes on combining files

Common subject is Oswald

File #10 Top Drawer: FBI failure to place Oswald on SI

File # 6 FBI Pre-assassination file on Oswald

File # 22 FBI Closes out the SS in the case

File # 22 Oswald as Red Bottom Drawer. . . .This would be in part FBI sticking Oswald with Red label as part of Hoover campaign against USACP.

Points to develop:

Rowley and Hoover cooperate. . . .Rowley steps aside as FBI pushes SS out of the investigation. I have some of this in BOT.

Both agency heads have reason to cover for each other. FBI for preventive intelligence not placing Oswald on SI and notifying SS of his presence in Dallas. Make case in terms of what the FBI knew about Oswald before the assassination. (Some of this in BOT.

Rowley because of the SS's blunders in Dallas, if they were blunders. What did FBI know about Chicago and Milteer and Miami? None of this brought before the WC as far as we know. Rowley/Hoover joined in a conspiracy of silence.

How does Walter case fit in here?????

Question to be settled: How much needed? Where to fit it into story? It might fit into a chapter on Putting Oswald in the Frame. It would have to follow chapter "Ides of November."
