D.L. Jackson File 2 Folder 26A

1. DiEugenio piece on Wade. . . May want to review what he says about Wade and the way he constructed line ups. . . Applicable to Oswald\*\*\*\*

1A. Key \*\*\* Dallas to Director (This is Kelley) 9/15/'75 62-109060-7344 & 62-109060-7346 9/22/'75. . . .Kelley alerted to the Hoover FBI failure to interview key witnesses(bike jockeys). . .what they reported all pointed to JFK getting hit from the front. . \*\*\*

2. Two Dallas News.Com pieces on Henry Wade. . .

2A Hal's on B.J. Martin's WC testimony 4/3/'64 6H289-293 . . . .somewhat exotic but might deserve a review. .

3. Officer Billy Hargis 4/8/'64 6H 293-296.....Hargis given 2 ½ pages. . .while Mrs. Bledsoe who contributed nothing to the matter at hand was given 10 times that much time . . . .(could be useful footnote if used). ..

4 & 4 A HAL'S NOTES TO WADE, ,... . . . .

4B Hal's note to Wade on the originality of Jackson and Chaney's observations about the shooting. . . (explains why Hoover FBI stayed away) . . .

5. As stated

6. Hal's CA 75-0026 . . . I have a few pages. . . \*\*\*\* I may need to review the entire document. . . (is it on my computer???) He makes very strong points that would be crucial for my purposes. . . \*\*\*\*

6A Cooke to Gallagher 9/16/'75 62-109060-7345 . . . Here Cooke (from the Hoover years???) makes the big lie: See his Action comments: Nothing we heard from the bike jockeys (Jackson and Chaney) have changed or need to restate any of the conclusions already part of the record. . . \*\*\*\* What crap!!!!6B A great offset document of 6a. Belmont to Tolson 12/4/'63 105—82555-(unrecorded) Here we have the FBI advertising its practice of leaving no investigative stone untouched as it goes for broke to be certain to id and interview all the 150

D.L. Jackson, File 2, Folder 26A

newsmen in basement at time of Oswald's murder. . . While it avoided like the plaque all the bike jockies.

7. Hal has a long piece on the crucial info that Jackson possessed. . . .and why he was dismissed . . . .

7A Hal's notes on Chaney . . . brings some clarification as to what Chaney saw\*\*\*\*

7B Is a companion document w. 6B above. Belmont pledged to Director that FBI will track down and question every cop in basement at time of Oswald's murder. It had interviewed 88 Dallas cops so far. . .Nothing escaped the FBI. . .

8. Cooke to Gallagher 8/12/'75 62-109060-7256 Classic conclusion: Notes on p. 4 at the end of the document "None of these interviews have cast any doubt on the conclusions of the Warren Commission." Just a whitewash. . .

9. More on the FBI daring-do in tracking down newsmen and Dallas cops who were in basement when Oswald was shot. . . .\*\*\* Humorous. . .as mindlessly useless. . .

10. Classic example of FBI phony effort to elicit information . . . .Here is report by 2 FBI agents whose names are masked who interviewed both Chaney and Jackson and avoided any unwanted testimony. . . (Hal has commented on this in an earlier document in this folder. . .Date of interviews was or report was 10/7'75, 62-109060-7369. . . .\*\*\*\*\* connect w/ Hal's earlier commentary. . .

11. Copy of Jackson's 6 page account of the shooting \*\*\*\*\* read carefully.

12. FBI SA (name masked out) to SAC, Dallas (89-43) 62-109060-1257. . .Source stated that in conversation w/ Jack Revill on 9/3/'75 that Revill mentioned that former police chief Curry told him he believed that two men were involved in the shooting of JFK. . .Curry made reference to a statement that one of the bike

D.L. Jackson, File 2, Folder 26 A

jockeys made that “he had ridden through a spray of blood at the time the shots were fired.” The officer whose name is blanked was SA Brown. See item # 13 which reveals it was Brown . .

14. Sheet from a chapter was never published in BOT. . .Question I have is What was that Chapter that was never in BOT. . . Could it be the Oswald/Lovelady Chapter????

15. No help/16 No help

17. Here we have several FBI docs that focus on the Bureau’s efforts to interview all the Dallas Police in basement when Oswald was killed. This admirable effort at comprehensive police work is notable largely because the failure in protection (if it was failure and not design) all rested on the Dallas police. . .not the FBI.
