

#26 B

Notes on "Jackson File"

This also deals with related issues associated with JFK trip to Dallas. Chapter title (tentative) is Ides of November. . .

Folder 26A

1. DiEugenio has piece on Wade and replacement Watkins. Notes Watkins reforms of the DA officeof practices that were in place from Wade's long reign . . . He cites the abuses. . . including the way Wade handled line ups. . . See Griggs essay on this.
He also notes that Wade stashed away of both exhibits and 15,000 pages of documents related to the Kennedy case (I am assuming).
2. Dallas News on Wade. . . 3/1/'2001. . .Contains a few items that might be of interest. Actually this is simply a reprint of a news story re: Wade that appeared in Dallas Morning News in Aug. 18, 1985. . . All praise for Wade. . .Notes he was at one time FBI There is a cite somewhere where Hoover asserts was not aware of this. . .

DiEugenio makes important point that Wade had Oswald in the frame with in 36 hours. . .of JFK's death. ✓

actually PD Dallas had his in frame in 40 minutes

3. Dallas News story on Wade's death 3/1/2001. . . .Might want to review for sense of Wade's prominence and high regard he was held in Dallas.
4. A sampler of Hal's correspondence with Wade. . . .I include here as backdrop to Wade's sending onto HW officer Jackson's ignored statement of the shooting. . . and the failure of the FBI to question the bulk of the motorcycle jockeys who were with the Dallas motorcade. . .
****4A. Hal to Wade 6/1980 Hal thanks Wade for a copy of Jackson's Note that Jackson's account squares with Connally's insisted upon version that he was hit by a separate bullet. . .
Also he has some useful stuff on the motorcycle cops in both attached letters.
5. Ian's letter to me with more precise details about the motorcycle detail on

Notes on Jackson file, p. 2

The number and location of jockies with the JFK Dallas motorcade.

sheet

6. Belmont to Director 12/4/'63 Belmont lays out all the effort by the FBI to interview (THE WORLD) everyone in the basement in connection with Ruby's assassination of Oswald. . . .shake every tree to contact all of the 150 news media people who were present. . . CONTRAST WITH HOW FBI IGNORED THE BIKE JOCKIES. . . .AND

NOTE review carefully item 10 in folder 26B . In 1975 FBI got around to interviewing Chaney and Jackson. Jackson lays out for them what he saw on 11/22. . . .in short, that Connally was hit by a separate bullet, etc. . . .and that JFK was hit in the upper right side of his head. . . that was a shot from the front. . . *** what is crucial here is that doc. 62-109060-7369 the names of the interviewing agents in both cases with Chaney and Jackson were masked out to keep researchers from asking for their notes. . . ****

Note

7. Callaghan-Cook Memo 1975 62-109060-7345

See p. 3 of Doc. Where he notes that Jackson helped remove JFK from limo and place him in a ~~stretcher~~ stretcher - memo has had a good look of his head wound
