SUBJECT: ASSASSINATION OF PRESIDENT JOHN F. KENNEDY

At 1:37 a.m. 12-1-63, Extra Duty Supervisor Stephen F. McInerney was contacted telephonically by ASAC Kyle G. Clark, Dallas Office, who advised that he had the following answers to questions previously presented in this case by Mr. McGowan concerning the following items:

Police Officers Interviewed at Dallas

Investigation at the Dallas Police Department determined that there were 77 officers on duty in the basement of the Police Department at time of the Oswald shooting. Thirty-six of these officers have been interviewed by Bureau Agents, and steps are being taken to interview the remaining forty-one officers. Clark advised that some of the interviews conducted to date have disclosed additional names of officers who were on the scene, and they will also be interviewed.

News Media

Best Mike-Jackey not interviewed

To date the Dallas Office has identified forty-six individuals connected with the news media that had been at the scene of the Oswald shooting. Eighteen of those individuals have been interviewed in Dallas. Eighteen additional are scheduled for interview in Dallas, and leads have been set out for other offices to interview ten other of these individuals.

ASAC Clark raised the question concerning a memo for the President which was prepared which indicated that there were 150 persons at the scene of the Oswald shooting in Dallas other than police officers. Clark stated that since investigation conducted in Dallas to date has failed to indicate that there were that many individuals other than police officers at the scene, they would appreciate being advised of the source which indicated the number to be 150 so that attempts could be made to verify same.
