

FALSE OSWALDS (OR IMPOSTERS)

FOLDER # 1

USE THIS MATERIAL W/ REFERENCE TO THE FBI TICKLER Notes FBI WITHHOLDING OF MEMOES FOR 1960-1961.

CHECK HAL'S "OSWALD IN NEW ORLEANS" WHERE HE HAS 4 DOCS OF Oswald imposters.

3. Items listed as # 3 deal w/ FBI's alert that someone in Russia maybe using Oswald's passport . . . that there may be an Oswald imposter. . . see news items re: this story of possible Oswald imposter (now dead). . . Issue here: was WC ever alerted to this possibility by the FBI. Hoover was on top of this in June 1930. Issue raised in newspapers in 1975 was whether FBI ever alerted WC to this suspicion. The only one who (11 years later) thought he had seen the Hoover to State Department memo was Willens who thought he may have seen it. . . (hardly a confirmation).

Note: If there was any question about the body killed by Ruby the US Marines, et al had Lee Harvey Oswald's fingerprints. . . and Dallas PD had the man who allegedly shot JFK and had his prints. . .

4. CIA interest in Oswald's wrist wound re: authentic suicide attempt or a stage+d affair. . . (Check, if used, w. Oswald in Russia book . . .
