

AGENT OSWALD FILE

23
Bowen

Group # 2

1. 1/29/64 SAC to File Quigley ordered to commit an affidavit that he never tried to recruit Oswald. Was this because Q lied that he knew nothing about Oswald when he went to the jail to interview him after the 8/9 incident? Also affidavit from NO SAC Maynor.
2. 2/25 Col. Corso allegations that CIA had Oswald as a govt informer. . . .
3. Hoover affidavit to go to Bobby to assure him that LHO was not FBI informant
4. 2/29 FBI checking to make sure that Bowen/Osborne was not a Oswald accomplice Based on Bowen's uncooperative attitude and because he allegedly sat next to Oswald in bus to Mexico. Good stuff
5. 3/26 Rankin's privately delivered letter to Hoover w/ specific questions he wanted FBI to answer in detail. Were these the infamous "30 Questions" or others specifically addressed re: Oswald as agent????
6. 4/7 London, Legat, to Hoover Report of what McFarlands said about LHO on bus to MC.
7. HSCA M. Ewing shows Stern CIA memo re: considering trying to recruit Oswald. . . . I have this in another film w/citation.
8. Branigan to Sullivan 2/12 Re: Notes what FBI received from ONI, Mariines, CIA,. State, and DOD, on Oswald after his defection. What is cited is just stuff that would enhance the profile of Oswald as a possible assassin, Nothing on his security clearances and access to high grade military intelligence (radar secrets). This had to be intentional on FBI part or other agencies were withholding . . . See note by Hal. Hal notes that this did not even include what the WC had from the Marine Corps. (Need to locate this in WCR or in the exhibits). For examples of withholding see attached 8A.
