File -  
Oswald as  
Agent

Cover notes with Hal and Bob Benn correspondence

Found in Oswald/ONI File-Confidential

These pages can be used to illustrate that ONI files on Oswald were purged.

Clear that ONI wanted to impress that it had no interest in Oswald.

His ONI files show nothing of his assignments—like Operation “Strong Back” and Hal thinks a second against Sukarno called “Haylift.”

Powell said 2 ops. against Sukarno possible  
we testimony

Notes 5/2/88 letter (all of the above 5/2 letter

In a letter O wrote to Connally there is an implied threat. Hal discusses in Whitewash. Oswald statement in that letter that everything he did was known to out embassy in Moscow. Hal says this has been missed by everyone else. \*\*\*\*\*8

5/17 note

If Oswald got rifle through the mail to Hidell PO Box. . . He should have signed for it. This did not surface in any investigation.

In one of these notes Hal alludes to Oswald as “patsy,” “fall guy” or DECOY. This Decoy played big in my mind. Did the conspirators use him as a decoy so the shooters could escape. The fact that Oswald was wrapped up so quickly points in this direction. The point made that he was the only one who left the TSBD etc which was not true but pointed the finger at him right away, etc. I need to keep this in mind.

Clay says  
There is a Book  
on Oswald  
as a "Decoy".
