

While there are discrepancies, he without doubt is talking about what he knows and can't be improvising as he goes. Lil may have misunderstood daughter's age or perhaps there is second daughter. Son 26, Accountant with small paper of his own on side.

He did not say, I did not ask why CIA would use him on assassinations. He did say he had seen FBI reports which show Lane, Kmatler, Shirley Martin, whose first name we did not remember, actual Communist agents, i.e., working for Moscow. He knew or said what shows he knew much about Shirley, who he says was dead. (Not fairright he is stringly anti-Communist.) He says he had lived "angil earlier, one of children "drak." Then husband much older man who had private plane and flew Louis in it. Believes Father Huber story.

He saw Tippit corpse. Large part head missing, large chest wounds. Says authorities believed there were bullets they didn't find.

Like Tippit, who he knew well. Describes not as dumb cop.

Reville-Hasty story: Kamm does not believe Schill revisions, believes more likely to have been something like you are surprised whom your own stables do it. Like Butler saying he was glad JFK killed but sorry it had to be in Dallas. (Says Fritz had no use for Butler and would have never trusted him to give basement all-clear.)

Has Oswald in Oak Cliff Cuban parties, apparently one in particular Wednesday nights.

Seems to believe firmly that Lovelady was "second Oswald." More places than Dallas. TUBB hangout for leftwingers whose employment records altered. Says he did work (for government) on Rosenberg case.

No identifications CIA personnel except Hoel. These discussions are among times recorder off his request.

2, 2 graf 2 she says the quote of LHO is "Who got killed?"

Which means the discrepancy, he without doubt is talking about what he knows
and can't be improving on his guess. Will may have misread father's eye or
penmanship in second daughter. Don't. Accidental with small paper of his own in 1960.

what name he knew about Shirley, and he says not dead. (Not ferrugine as is allegedly
a GI-Communist.) He says he had lived - travel earlier, one of children "Frank." Then
husband took older son who had private plane and flew home in it. Believes rather
Huber story.

told him there were bullets they didn't find.

Lake Lipid, who he knew well. Remembers not as dumb con.

Even without my telling him that Palmer told FBI about him as soon as possible.

He got to identify horse hall. Know Gynour (volunteered nothing more) no former
employee was described as from Dallas side, which is correct but could have come from
D.D. Does not know Howard, no reaction to description.

Don't know, don't say now.

Comment on Car line roughly he jumped to the wrong conclusion. He reaction to description.
Did not know Bill Jay Griffin (FBI agent tr. from N.O. to Dallas.)
