1. Hoover to Rankin 3/18/'64 Notes common materials that could show up barium and antimony in a NAA test without indicating the subject fired a weapon.
2. Hoover to Rankin (and dupe) FBI notes only two shops in Dallas area that sold 6.5 Mannlicher/Carcano ammo. . . .names the shops and concluded that could not determine whether any of the alleged ammo used in the assassination by Oswald came from either one of these stores. (Also add that FBI was never able to identify Oswald using any gun range or any shooting place in Dallas for rifle practice. . . .
3. Dallas to Director 3/14/'64 FBI finally catches up with the other 3 bullets taken from Tippit. . . .Excuse was that a DPD officer placed the other 3 bullets taken at autopsy at Parkland Hosp. . . .into Fritiz's evidence cabinet. . Point here is that the one bullet the FBI looked at that was removed at Methodist Hosp it could not determine whether or not it came from Oswald's revolver. . . .(point here is that it didn't) Never bother to track the others down. . . .(point: another reason why WC moved for outside expertise w. ballistic evidence. . . .)
4. DPD Property invoice. . . .Check entries in the 3 pages re: Minox camera becomes a Minox meter. . . .and in one entry of Minox cassette w/ exposed film . . .This list was typed over by FBI. . .Note this on p. No. 11177. Note here too that this was voluntarily turned over to the Dallas PD by Ruth Paine on 11/22/63. . . .Small point: Note that Fredda Scobey alerted Russell to this fact. . . .That had the case gone to law all this evidence would have been excluded. . . .
5. Rankin to Hoover 6/10/'64 consists of list of stuff that was on "the FBI index of personal property taken from the Paine house" includes the Minox light meter and the Minox camera (written in over originally "light meter").

What brought this all about was the WC's desire to see a copy of the JFK autopsy report. . . The FBI never bothered to include one in its CD-1. (12/9/63). . . Imagine the WC asking for a copy of the JFK autopsy report. . . When he found out that the FBI had not wanted or acquired a copy even to inform its report on the JFK assassination.

Point: autopsy report some of the best evidence in any homicide. . . Hoover marginalia: Classic: "If the WC is going to run down every wild news paper story it will never finish." The FBI went ahead and acquired a copy of the Bethesda drs autopsy report. . . . when - see Doc 113
