3. Rankin to Hoover 3/3/'64 Raises issues and questions re: Marina's 4 days of testimony before the WC. . . He raises questions re: her testimony. . . and p. 2 about the shipment of rifle from Chicago w/ or without the scope which would mean that if the scope was not mounted that Lee would have had to have it mounted soon because the Walker shooting took place just about 2 weeks after Lee allegedly received the rifle. (if this is probative then I have to flesh out details)

4. March 10, 1964 Exchanges Jevons to Conrad and Hoover to Rankin both making same case that NAA testing could not determine whether or not the paraffin tests could determine whether Lee fired the weapon or not. . . This became the FBI party line. . .

5. Jevons to Conrad 3/12/'64 It was at this date that the Commission noted that the FBI had ignored all of the other three bullets extracted from Tippit and asked the FBI to retrieve them from the Dallas police and run tests. . .
