The wounding of Governor Connally, and the murder of JFK. The citation read that Oswald was the man “Who shot and killed President John F. Kennedy and police officer Tippit. He also shot and wounded Governor John Connally.” That was 20 minutes after JFK was pronounced dead!!! See JFK/Dallas PD Collection Records of City of Dallas Municipal Archives. Arrest Report on Investigative Prisoner. 11/22/1963 at 1:40 P.M. Copy of report also found in 62-109060-2074 EBF -27 FBI Main Assassination File.

Cabinet members on board SAM 86972 en route to Tokyo learned at 12:45 CST received a bulletin from the White House Situation Room that “*Three Shots Were Fired at President Kennedy’s Motorcade in Downtown Dallas.*” Before there was any semblance of an investigation into the crime it was already established that there were only three shots fired which would lend credibility at the outset to the lone, single assassin mythology of the authorities’ immediate explanation of the Kennedy assassination. Oswald’s last 44 hours of life were spent at the Dallas Police Department. The official account is that he was interrogated by Captain John Will Fritz for about a combined 11 hours but, according to the official account there was no record of what was said because the Dallas Police Department did not have a tape recorder or stenographer present! Fritz’s explanation was that he had requested a tape recorder for the last two annual budgets but his request was denied. So all that ever surfaced over the assassination

weekend of words legitimately attributed to Oswald was his blurting out to reporters that he shot no and was "just a patsy." The Warren Commission, FBI, and Secret Service never raised any questions about this exercise in steeled reluctance to be honest with the truth.

After Oswald was murdered in the basement of the Dallas Police Department on Sunday, surrounded by 98 police officers and 150 reporters, the Secret Service swept up Marina Oswald, her children, Oswald's mother, and his brother Robert. They were taken to the Inn of the Six Flags outside Arlington, Texas. After dinner two agents grilled Marina for almost 8 hours. All of this interrogation was captured on a tape recorder. The tapes were then flown to SS Headquarters in Washington, D.C. It would be fatuous to assume that the SS members and FBI agents who participated in Fritz's interrogation sessions did not record the exchanges with the prisoner Oswald. See To Director and SAC, Washington Field from SAC, Dallas, FBI Oswald Files, 105-82555-412 and 105-82555-0412 B1. Over the last 50 years these tape recordings have never surfaced. Presumably, they were quietly deposited down the Memory Hole.

The official assertion that the early evidence uncovered against Oswald over the assassination weekend was irrefutably convincing was really so removed from reality as to defy caricature. One noteworthy example: In September 1964, just weeks before the Warren Commission Report was made available to the public Alan Belmont, Assistant to the Director, told Clyde Tolson, the number two man in the Bureau, that Oswald's paraffin tests that allegedly linked him to the shooting of President Kennedy was "erroneous as the results were essentially negative . . . and in addition highly technical examinations made by the Atomic Energy Commission and our Laboratory of these paraffin tests could not connect Oswald with the rifle."
