SS Report  
File 24  
LAB to Bury

Memorandum for File - CO-2-34030

The question has been frequently raised as to the date the Naval Bethesda Hospital's autopsy report was furnished to the FBI. Although the file does not reflect this, it has been established that on December 23, 1963 Orrin Bartlett, FBI Liaison Officer, requested and was furnished a copy of the autopsy report.

FBI Received

in furnished  
CO-1 over  
to me

There has also been the question as to the date on which the Secret Service furnished the autopsy report to the Warren Commission. A review of our files has failed to establish this date, probably because of the manner in which the autopsy report was held in a confidential envelope.

The autopsy report, which was made a part of the Warren Commission Exhibit, does not contain a Secret Service control number and it cannot, therefore, be reconciled with the documents forwarded from time to time to the Commission identified in these transmissions by means of Secret Service control numbers.

Mr. Trotter	
Tele. Room	
Miss Holmes	
Miss Gandy	

The body of the President was immediately taken to the National Naval Medical Center, Bethesda, Maryland, for autopsy immediately upon arrival in Washington, D. C., on the evening of 11/22/63. An autopsy was performed which was witnessed by three Secret Service Agents, two Bureau Agents, and attending physicians.

The Secret Service has advised our Baltimore Office that the photographs of the autopsy and X-rays of the President's body would be available to us through Secret Service Headquarters, Washington D. C.

ACTION RECOMMENDED:

It is not recommended that we request these photographs and X-rays through the Secret Service Headquarters at this time as it does not appear we shall have need for this material. In the event such a need develops in the future, this material will be readily available at Secret Service Headquarters.

- 1 - Mr. Conrad
