

Broad Statement on the WC Report

This list from Hal's CA 78-1107

Note
Report called "Sous-Sac" and "Katy"

*Leaks. . . These leaks were engineered by the FBI and to a large degree controlled what the WC could undertake by way of examining witnesses and the evidence in the case.

- Deficiency in the evidence. . . Most of the Report bears little or nothing on the evidence. The shortest part of the WCR is merely 32 pages in length entitled "The Assassination."

What is missing from the Report are the results of the scientific tests and the official certificate of death signed by Kennedy's personal White House physician. . .

Above all on p. 122 of above site...

- Note on Oswald & motive. . . use of semantics in place of evidence in the case. Eg. . . The description of Oswald as dedicated Marxist when all the WC's evidence is that Oswald was an Orwellian. In his secret writings he condemned the Russian bureaucrats as "fat stinking politicians" and described American communists as "betrayers of the working class." (source this).
- Inordinate delays in bringing witnesses forward whose testimony was crucial to the case. Eg., While the WC planned to have its Report finished by June it had not brought forward for questioning Abraham Zapruder and Phil Willis and neither were brought before the WC. Neither was deposed until July. James Altgens, the AP photographer who took the best-known professional photograph was not questioned until June. . . Jim Tague was not questioned by a member of the WC staff until July. . .
- Allman, Ford, and Carolyn Arnold never questioned at all . . . (Oswald's alibi). . . . PP 123
-

- Point K (Hal's) total absence of any records of the extensive scientific tests run. P. 124 I have made copies of this page.

. 124 The FBI and SS on the three shots and three hits (never revised) refutes the WCs S/B theory. . . . Never been reconciled. . . and no attempt ever made. .

@ Work of WC predate the investigation and conclude with Oswald as the assassin and no conspiracy. See this with the January proposal of outline from Rankin's desk. . . Date January 22, 1964 WC Session supports this. . . Where Rankin notes that "FBI is very explicit that Oswald is the assassin or was the assassin, and they are very explicit that there was no conspiracy." Hal goes on at some length on p. 125. . . making this point. . . and over onto p. 126. . . Then shifts to January 27th transcript of WC Ex. Session . . where Rankin begins "We have a very dirty rumor that is very bad for the Commission . . . and must be wiped out" Before the WC members held their first questioning of witness and examination of the evidence that Hoover (and one can assume Hoover had cleared this with LBJ. . . It was a joint desideratum. . .) that Hoover was determined that it conclude that Oswald acted and he acted all alone. There was no conspiracy. . . . Oswald was not connected to any federal agency. . . This was a decision that should have been determined by evidence and not by behind closed doors in a top secret executive session . . . Which meant that all the evidence being tested by the FBI had already been prefigured as to what they would reveal or not disclose. . . What is meant that the WC can just "fold up and quit."
