Re: Remarks from Chpt. On Lovelady/Oswald Controversy

p. 7 I have dates wrong when Vicky Adams corrected the transcript

P. O. VV. Campbell was a male not one of the six women. HV notes that Virginia Baker did testify before WC Vol. 7 507-513 under her married name or different name.

p. 26. Atten Wiegman film shows man in doorway with open shirt and t-shirt showing. That was Oswald, says Hal because Lovelady was in shirt with collar buttoned up. ****
Check this with Wrone.

Note: Oswald on Jarman and Norman. When did he report seeing them (time) WCR p. 182. Point here is that Oswald reports seeing them and the time was exculpatory. . . Hal may clear this up with his responses to the chapter.

Appendix XI p. 627 SS Kelley asked Oswald did he see the president. Oswald said no. Makes sense if by the time he got to the front of the TSBD the motorcade had already passed his point of vision.

Hal locates Altgens film at Z 255. . . He contends that at Z 255 there had already been three shots. He contends there were 6 shots altogether.
