Jerry,

You can read about Mockingbird here:

I have persuaded Deborah Davis to join the Forum where she has agreed to discuss her problems with the CIA. A friend of hers, Peter Janney, tells me that her career was destroyed as a result of her book. My email exchanges with her suggests she has been mentally scared by the experience.

John,

Thanks for your latest e-mail. One of the things I am working on is the profiling of Oswald that hit the papers over the weekend of the assassination. My suspicion is that some of the press stories that Oswald was a Castro asset or dupe (whatever) originated with CIA sources. I know a Cuban by the name of Lanusa was one. He was the information officer for the anti-Castro DRE and was financed by the CIA's Jonnaides. I also suspect that Hal Hendrix with a Miami paper was another.

I'd love to get a copy of Davis book if there are any available. Do you know if any of her books ever reached the public??? "Operatiocn Mockingbird" is all new to me. Do you know if this operation was ever cited by the Church Committee or any other government source in the 1970s.

Is Davis still alive and can she be reached?

Any help on this would be much appreciated.

Stay well
